updated: 12/20/16 | starts: 12/20/16

CLASS DESCRIPTIONS

Body Sculpt: 60 minute work out challenges all your major muscle groups. Toning & sculpting your body using weights, balls & bands for the ultimate workout experience.

Cardio Cycle: Participants are guided through a series of workout phases on spin bikes including warm-up, steady up, tempo cadences, sprints, climbs, cool-downs and more. Bring a towel and a water bottle!

Cardio Sculpt: Traditional cardiovascular, high and low impact exercises combined with resistance training using weights, bands and tubes to strengthen and tone muscles.

Extreme Abs: Concentrates on strengthening and toning the abdominals, oblique's and back.

Gentle Yoga: Traditional yoga designed at a gentle pace focusing on improving balance, flexibility, relaxation and proper breathing techniques.

Interval Training: High intensity, cardiovascular exercise, alternated with periods of lower intensity activities involving weights, bands and exercise balls.

Pilates: Exercise for developing stomach muscles. A form in which you develop the muscles in your abdomen in order to control your body movement and protect your back.

Trim & Tone: A total body fitness class that emphasizes on slow precision movements that strengthen, condition and tone your muscles. The workout uses resistance training, free weights, bands, stability balls and tubes and is adjusted to all types of fitness levels.

Tai Chi: A healing martial art that combines many martial arts movements with Qi (energy) circulation, breathing and stretching.

Yoga: This class concentrates on improving balance, flexibility, relaxation and breathing techniques. This is a great way to learn how to manage and relieve stress.

Ab Lab: 30 minutes of core work with mixed weight training.

Cardio Dance: 1 hour of calorie burning fun through dance with mixed weights and core training at the end.

Fall Sculpt: Improve your strength, muscle tone, and burn fat with this 12 week progressive program! This class will emphasize fat loss muscle toning via intermittent superset.

Core and Balance: Perfect for the active older adult and is primarily performed in a chair with some standing exercises. Tubing and other equip. may be used to improve strength, flexibility and balance.

30/30/30: Scorch calories with 30 minutes of cardio, 30 minutes of weight training, and 30 minutes of core.

30/30: 30 minutes of a high energy warm up on the spin bikes, then moving to Studio A for weight training.

Cardio Express Ball: Easy to follow cardio fusion with innovative movement variations using the ball and creating core stability.

beginnerbarre: Is a dynamic fusion of cardio, yoga, ballet and core conditioning. This an all body workout using classic ballet moves that attack those dreadful problem areas—legs, butt, thighs, and arms.

Monday Night Burn: Start your work week workouts right with an hour of cardio, strength and core in an intensifying strength interval workout.

Pilates & More: A pilates class focused on the entire core. Front, back and sides of the body plus hips and glutes. You will feel stronger and stand taller. A great way to start your day!
